# THURAI TUN

## JUNIOR WEB DEVELOPER

## WORK EXPERIENCE

**Za Company (OJT)**

I used to Laravel, Filament, Vue and Nuxt to upgrade the old project which is the art selling project (real world Project). In this project, I worked UI design using tailwindcss, state management using pinia and nuxt built in usState, auth middleware using typescript, api handle using axios and nuxt built in useFetch. Image upload using Digital Ocean Cloud Server. And other project is employee vacancy form using laravel and filament.
